

“What If” Calculator

The “What If” calculator can be used to create estimates for future paychecks, based on user-inputted data, such as exemptions and pay amounts.

1. Select “What If” Payroll Calculator from the main menu.

“What If” Paycheck Calculator					
Pay Information					
Pay Description			Hours/Days	Pay Rate	Amount
OTHER TECHNICAL ASSIGN - SALARY					2,000.00
TOTAL PAY:					2,000.00
<input type="button" value="New Pay Line"/>					
Taxes					
Tax Authority		Exempt	Filing Status	# of Exemptions	Additional Withholding
Federal		N - Not Exempt <input type="button" value="v"/>	MARRIED <input type="button" value="v"/>	2	0.00
State:	OH <input type="button" value="v"/>	N - Not Exempt <input type="button" value="v"/>	MARRIED <input type="button" value="v"/>	2	0.00
Locality:	UNKNOWN <input type="button" value="v"/>	UNKNOWN <input type="button" value="v"/>	UNKNOWN <input type="button" value="v"/>	0	0.00
<input type="button" value="Next"/>					

1. To calculate estimates:
 - a. Input Amount in Pay Information
 - b. Input federal tax information, including exemption status, filing status, number of exemptions and additional withholding.
 - c. Input state tax information, including state from drop-down menu, exemption status, filing status, number of exemptions and additional withholding.
 - d. Input local tax information, including locality from drop-down menu, exemption status, filing status, number of exemptions and additional withholding.
 - e. Click Next button.
 - f. Input deduction percentages and amounts, and click on the Calculate button.
