

## Implementing TI-Innovator™ Rover in the Mathematics Classroom

This Professional Learning Opportunity focuses on connecting the use of TI-Innovator™ Rover- an educational robotic vehicle that students program with their TI graphing calculators to explore topics in middle and high school mathematics curriculum, science, coding and STEM. Ready-to-use activities for enhancing student understanding of key mathematical concepts will be explored.. Connections will be made between Ohio’s Learning Standards for Mathematics and Ohio’s Learning Standards for Computer Science.

Attendees will receive a set of TI-Nspire CX II graphing calculators, TI-Innovator™Rovers and the TI-Nspire Premium Teacher Software.
