

OTES 2.0 Bridge Training

The Ohio Teacher Evaluation System 2.0 Bridge Training is required for existing OTES 1.0 credentialed evaluators to address shifts with OTES 2.0. Bridge Training is a pathway that leads to OTES 2.0 re-credentialing with the objectives of:

- Promoting an understanding of the procedures within OTES 2.0 and how they differ from OTES 1.0.
- Promoting an understand and application of the OTES 2.0 teacher performance rubric while learning to collect evidence that demonstrates teacher performance.
- Applying lessons learned and best practices from OTES 2.0 implementation to date.
- Learning about and identifying High Quality Student Data (HQSD).

Upon completion of the OTES 2.0 Bridge Training evaluators (participants) may re-credential through the new online credentialing system. The OTES 2.0 Bridge Training will provide a better understanding of the OTES 2.0 Framework and Model, allow practice of skills and allow for sharing of resources and best practices in educator evaluation.

Please choose from one of the sessions listed below.
